

# Task Allocation

| Member                           | Frontend and backend contribution                                  | Supporting work and equal share                             |
|----------------------------------|--------------------------------------------------------------------|-------------------------------------------------------------|
| Shreeya Srivastava (20243267)    | Group/membership APIs plus group creation and member-management UI | Workflow tests and documentation review - 25%               |
| Shraddha Sharma (20243266)       | Authentication API validation/JWT plus registration and login UI   | Requirements, auth tests, README review - 25%               |
| Rudransh Pratap Singh (20243243) | Expense CRUD/split APIs plus expense and activity UI               | Split tests and test-case review - 25%                      |
| Sachit Jain (20243245)           | Balance/debt/settlement APIs plus dashboard and balance UI         | Integration tests, Docker, evidence, demo preparation - 25% |

Each member contributed to both frontend and backend work. The 25% allocation is equal across the complete mid-semester deliverable; responsibilities show the primary ownership used to coordinate reviews and integration.
