# Contribution Record

ExpenseEase - Shared Expense Management System

Software Engineering and Project Management (CSN15101) | Instructor: Dr. Satarupa Chakrabarti

The team records an equal **25% contribution by each member** across the current project scope. All members contributed to frontend and backend work. Primary ownership below was used to coordinate implementation, review, and integration; it does not imply that a member worked exclusively on one layer.

## Member Contributions and Supporting Evidence

| TEAM MEMBER | PRIMARY RESPONSIBILITY | MODULES / SUPPORTING WORK | SHARE |
|---|---|---|---|
| **Shreeya Srivastava**<br>**20243267** | Group and membership coordination; frontend and backend integration | Group and group-data APIs, membership rules, group UI, workflow tests, and documentation review. | **25%** |
| **Shraddha Sharma**<br>**20243266** | Requirements and authentication coordination; frontend and backend integration | Authentication API, validation, JWT, registration/login UI, authentication tests, and README review. | **25%** |
| **Rudransh Pratap Singh**<br>**20243243** | Expense and split coordination; frontend and backend integration | Expense APIs, split validation, expense/activity UI, split tests, and test-case review. | **25%** |
| **Sachit Jain**<br>**20243245** | Balances and settlement coordination; frontend and backend integration | Balance, debt, and settlement APIs; dashboard/balance UI; integration tests, Docker verification, and project evidence. | **25%** |

| | | | |
|---|---|---|---|
| **Allocation total** | **100%** | **Project work covered** | Requirements and design; authentication and groups; expense CRUD and split types; balances, debt simplification, settlements, activity/dashboard; testing, integration, Docker verification, and documentation. |
