

Demo Script (5-7 minutes)

Time	Presenter action
0:00-0:30	Introduce ExpenseEase and the team: Shreeya Srivastava, Shraddha Sharma, Rudransh Pratap Singh, and Sachit Jain.
0:30-1:00	Explain shared-expense pain points.
1:00-1:45	Describe groups, accurate paise calculations, and simplified debts.
1:45-2:45	Explain React, Express, Prisma, PostgreSQL in Docker, and the service layer.
2:45-5:15	Register or log in with a team-created account, open a real group, add an equal, exact, or percentage expense, record a settlement, open Balances, and view Activity.
5:15-5:45	State current limitations: payment processing, notifications, recurring expenses, OCR, and multi-currency support are out of scope.
5:45-6:15	State remaining work: test expansion, documentation, packaging.
6:15-7:00	Each member states their verified contribution.

Before recording: use team-created test data, 110-125% browser zoom, close notifications, and confirm readable text and audio.
